

PROFESSIONAL SUMMARY

DevOps Engineer with 5 years of experience in automating deployments, implementing CI/CD pipelines, and managing cloud infrastructure through Infrastructure as Code. Proficient in Terraform, Ansible, Jenkins, Docker, Kubernetes, and Shell Scripting with hands-on experience across AWS and Azure cloud environments. Experienced in streamlining release processes, reducing manual operations, and delivering scalable, highly available application environments.

TECHNICAL EXPERTISE

Cloud Technologies:	AWS (EC2, S3, IAM, VPC, Route 53, CloudWatch, CloudFormation, Auto Scaling, ELB, EBS, EFS, EKS, Lambda), Azure (VMs, VNet, NSG, Storage Account, AKS, Azure Monitor, Load Balancer, Key Vault)
DevOps Tools:	Jenkins, Git, Maven, Docker, Kubernetes, Terraform
Operating Systems:	Linux (Ubuntu), Windows
Version Control:	Git, GitLab
Monitoring Tools:	Grafana, Prometheus, Loki
Languages:	Linux, SQL, Python, Shell Scripting, Groovy
Other Tools:	JIRA, ServiceNow

PROFESSIONAL EXPERIENCE

Arthan Finance Pvt Ltd

Product Based

Aug 2025 - current

Designation: Devops Automation Engineer

Roles and Responsibilities

- Designed and maintained GitLab CI/CD pipelines for automated build, test, and deployment workflows across Dev, UAT, and Production environments.
- Developed and optimized Dockerfiles and Kubernetes manifests (Deployments, Services, ConfigMaps) for containerized application deployments.
- Provisioned and managed cloud infrastructure on AWS and Azure using Terraform, writing reusable modules and maintaining remote state for consistent environment deployments.
- Wrote Ansible playbooks to automate application installation, configuration management, and environment setup across Linux servers, reducing manual effort.
- Built and managed Jenkins pipelines for application builds, integrated with Git webhooks for automated CI triggers and Slack notifications on build status.
- Performed daily AWS operations including EC2 management, IAM role reviews, S3 bucket policies, CloudWatch alarm tuning, and cost monitoring.
- Managed and monitored server health, uptime, CPU/memory metrics, and application performance to ensure smooth production operations.

TCS

Project 2

Client: Nielsen

Dec 2023 - Jul 2025

Designation: Devops Engineer

Roles and Responsibilities

- Developed multi-stage Jenkins pipelines for Java applications, automating the full build, test, and deployment process across multiple environments.
- Configured Jenkins plugins for version control integration, automated testing, deployment orchestration, and monitoring to strengthen CI/CD workflows.
- Automated server provisioning and application configuration using Ansible playbooks across Linux and Windows servers, reducing manual intervention.
- Implemented role-based access control (RBAC), credential management, and scheduled jobs in Ansible Tower for secure and repeatable automation.
- Managed and automated infrastructure provisioning on AWS using Terraform.
- Managed Kubernetes clusters monitored health, scaled deployments, managed namespaces, and performed rolling updates for zero-downtime releases.

Project 1

Client: Proximus

June 2021 - Dec 2023

Roles and Responsibilities

- Designed, provisioned, and managed AWS infrastructure including EC2, S3, IAM, VPC, and EKS for multiple production applications.
- Configured and managed Auto Scaling groups, Elastic Load Balancers (ELB), and Route 53 for high availability, automated traffic distribution, and failover.
- Automated build and release processes by writing batch and shell scripts, replacing manual steps across environments.
- Used Ansible ad-hoc commands and playbooks for routine server patching, package management, user administration.
- Built and maintained Jenkins pipelines for scheduled builds and releases, integrated with GitLab for automated CICD.

CERTIFICATIONS

- **AWS Certified DevOps Engineer** - Professional
- **AWS Certified Cloud Practitioner**

ACHIEVEMENTS

- Received recognition for excellence in cloud infrastructure management and troubleshooting.
- Awarded Team Excellence Award for outstanding collaboration and performance in delivering the projects.

EDUCATION

Bachelor of Technology in Electrical and Electronics Engineering

KL University, Guntur.

2017 - 2021
